

HIPIII HERBICIDE USE FORM

HIPIII NO# YEAR PROPOSED ACTUAL

Project Sponsor/person filling out form: _____
 Email Address: _____
 BPA Project Number (yyyy-xxx-xx): _____
 BPA Contract Number: _____
 EC Lead: _____
 Date: _____

INSTRUCTIONS: Only the Herbicides listed in note #1 are allowed for use under the HIPIII. Use "VARIANCE" for a variance approved herbicide not on the list and write it under trade name. Mixtures of up to three herbicides may be used and use one row for each herbicide application (mixture). All Herbicide Reporting is due by April 1st, you may have to submit 2 forms for one contract if the herbicide application period bisects this date. "Near ESA listed terrestrial species" is within 1 mile of habitat where they are known to occur. Near ESA-listed aquatic species follows Riparian Definition below.

LOCATION			Near ESA-Species or their Habitat?		HERBICIDE (Note #1)		Application Rate		Adjuvant (Note #3)	RIPARIAN (Note #4)			UPLAND (Note #5)				
										Actual Acres Treated	Methodology (Note #7)		Amount A.I. Actually Used (Note #6)		Actual Acres Treated	Methodology (Note #7)

Note #1: Active Ingredient:	Note#2	Note #3: Adjuvant Trade Names	Note #4: Riparian Definition :	Note #5: Upland Definition:	Note #6: Total Volume	Note #7: Methodology
2, 4-D (amines)	Report Lat/Long using decimal degrees	Dynamark™ U.V. (red)	"Riparian" is defined as land within 150 feet of any natural water occupied by listed salmonids during any part of the year or designated as critical habitat; or within 100 feet of any other water (ditches or ephemeral channels).	"Upland" is defined as all other land not in the riparian zone.	List only the herbicide amount- do not include adjuvants or water. List the amount in ounces for liquid or pounds (weight) for dry powder.	** Mechanized application- would be done with vehicle- mounted (pick-up, 4-wheel, or tractor) fixed-booms, or spray guns.
Aminopyralid		Aquamark™ Blue				
Chorsulfuron		Dynamark™ U.V. (blu)				
Clethodim		Hi-Light® (blu)				
Clopyralid		Activator 90®				
Dicamba		Agri-Dex®				
Glyphosate 1		Entry II®				
Glyphosate 2		Hasten®				
Imazapic		LI 700®				
Imazapyr		R-11®				
Metsulfuron methyl	Super Spread MSO	** Hand- spreading granular formulations.				
Picloram	Syl-Tac®					
Sethoxydim	41-A®					
Sulfometuron methyl	Valid®					
Triclopyr (TEA)			** Wicking, wiping, dripping, painting, or injecting target weeds.
