Yakama Nation Fisheries is seeking proposals from qualified engineering firms to award a design and engineering services contract in support of salmon habitat restoration activities taking place in the Mad River in Chelan County, Washington. Based upon the proposals received under this solicitation the Confederated Tribes and Bands of the Yakama Nation will award a design contract to the best quality bidder for the Scope of Work described within this RFP. Services rendered under this contract will be performed from contract start date (to be determined) through December 31, 2022.

### Project Background

The Yakama Nation Fisheries is working with the United States Forest Service (USFS) to conduct a large scale salmon habitat project along the Mad River between river miles 1.1 to 4.3 (the Lower Mad River Project Area). In 2019 Yakama Nation Fisheries completed a habitat reach assessment of the Lower Mad River which indicated multiple areas on USFS managed lands between river miles 1.1 to 4.3 that could benefit from targeted fish habitat restoration. In early 2022 Yakama Nation Fisheries produced a conceptual restoration plan and design report for USFS managed lands within the Lower Mad River Project Area. The 2022 Conceptual Designs and Conceptual Basis of Design Report are available to review on the RFP webpage at:

<https://yakamafish-nsn.gov/restore/projects/engineering-and-design-rfp-mad-river-usfs-phases-3-4>

## Project Location Map

### Mad River (RM 0 - 4.3)

#### *Project Opportunity Areas*

These drawings should be viewed only as very preliminary concepts intended to describe the type of potential restoration work that could be performed. Additional site investigations and analysis will be necessary to determine specific treatment types and locations.

(Note that project work for this RFP ranges from river mile 1.1 to 4.3.)

## Proposed Scope of Work

### Phase 3 - Draft Construction Plan

Task 7 - Design level survey (if additional survey is needed)

As agreed to between the Yakama Nation project manager and the contractor, supplementary site survey may be completed to gather additional field data on existing conditions so that robust restoration designs can begin to be produced. Supplementary surveys may include further topographic survey, bathymetric surveys, groundwater testing, and/or geologic surveys, among other things.

Task 8 - Development of Permit level Construction Plan

The contractor will proceed with producing engineered designs of the preferred restoration concept(s) as directed by UCHRP staff. Design deliverables provided under this task will provide suitable detail to allow for environmental permits to be acquired for the project (includes accurate depiction of areas being impacted and estimates of material quantities).

#### Task 9 - Stakeholder Meetings and Communications

If requested, the contractor will assist in presenting the Phase 3 Construction Drawing Set to landowners and agency stakeholders for additional feedback and buy-in.

#### **Phase 4: Final Construction Plan**

#### Task 10 - Development of Final Construction Plan

Based on further direction from UCHRP staff, the contractor will produce final stamped designs of the project (includes construction specs and engineer's stamp - should be usable for producing bid document).

#### Task 11 - Create and Provide a Design Report

Contractor will prepare a Design Report for each project that gets installed under this contract. The Design Report will summarize project goals, field data collection, and technical design of the project including site survey, hydrology, hydraulics, grading, anchoring, and quantities/totals. A draft report will be provided for review, comment, and feedback. Revisions will be made to finalize the report.

#### Task 12 - Stakeholder Meetings and Communications

If requested, the contractor will assist in presenting the Phase 4 Construction Drawing Set to landowners and agency stakeholders.

## EXHIBIT A – SCOPE OF WORK

### 1. Overview and Background:

In coordination with the United States Forest Service (USFS) the Yakama Nation’s (YN) Upper Columbia Habitat Restoration Project (UCHRP) is developing salmon habitat restoration projects along the Mad River in Chelan County, Washington between river miles 1.1 to 4.3. The UCHRP recently produced Conceptual Designs and Basis of Design Report and Hydraulic Analysis for this project area which will form the foundation of salmon habitat restoration designs moving forward. Restoration opportunities include floodplain reconnection, side channel enhancements, stream bank restoration, and large wood enhancements. This contract will provide engineering and design services to the UCHRP to develop and coordinate a suite of permit level and eventually final restoration actions in the Lower Mad River Project Area that can benefit spring Chinook salmon and steelhead runs.

### 2. Project Location

### Mad River (RM 0 - 4.3)

#### *Project Opportunity Areas*

These drawings should be viewed only as very preliminary concepts intended to describe the type of potential restoration work that could be performed. Additional site investigations and analysis will be necessary to determine specific treatment types and locations.

(Note that project work for this RFP ranges from river mile 1.1 to 4.3.)

### 3. Work Tasks

Yakama Nation Fisheries staff may call upon the Consultant as necessary to perform the following work tasks:

#### **Phase 3 - Draft Construction Plan**

##### Task 7 - Design level survey (if additional survey is needed)

As agreed to between the Yakama Nation project manager and the Consultant, supplementary site survey may be completed to gather additional field data on existing conditions so that robust restoration designs can begin to be produced. Supplementary surveys may include further topographic survey, bathymetric surveys, groundwater testing, and/or geologic surveys, among other things.

##### Task 8 - Development of Permit level Construction Plan

The Consultant shall proceed with producing engineered designs of the preferred restoration concept(s) as directed by UCHRP staff. Design deliverables provided under this task will provide suitable detail to allow for environmental permits to be acquired for the project (includes accurate depiction of areas being impacted and estimates of material quantities).

##### Task 9 - Stakeholder Meetings and Communications

If requested, the Consultant shall assist in presenting the Phase 3 Construction Drawing Set to landowners and agency stakeholders for additional feedback and buy-in.

#### **Phase 4: Final Construction Plan**

##### Task 10 - Development of Final Construction Plan

Based on further direction from UCHRP staff, the Consultant shall produce final stamped designs of the project (includes construction specs and engineer's stamp - should be usable for producing bid document).

##### Task 11 - Create and Provide a Design Report

Consultant shall prepare a Design Report for each project that gets installed under this contract. The Design Report will summarize project goals, field data collection, and technical design of the project including site survey, hydrology, hydraulics, grading, anchoring, and quantities/totals. A draft report will be provided for review, comment, and feedback. Revisions will be made to finalize the report.

##### Task 12 - Stakeholder Meetings and Communications

If requested, the Consultant shall assist in presenting the Phase 4 Construction Drawing Set to landowners and agency stakeholders.

#### **4. Consistent Satisfactory Progress**

Consistent satisfactory progress in this project will be required. Satisfactory progress will be measured by both the quality and quantity of work. If for any reason no work is performed, the Consultant may be given a notice of contract cancellation. Consistent satisfactory progress will also be determined by the Consultant's demonstrated ability to perform all work tasks described in the Scope of Work. If it appears that the Consultant is unable to complete the project tasks the Consultant may be given a notice of contract cancellation. The Yakama Nation's designated representative will monitor progress closely.

#### **5. Key Personnel**
