

## **Scaffold Camp Floodplain Enhancement Project Pre-Bid Zoom Meeting Instructions**

On Tuesday, February 21, 2023 from 9:00 – 11:30 AM, a Zoom video conference will be held for interested contractors to discuss the proposed Scaffold Camp Floodplain Enhancement Project with the Yakama Nation Fisheries Project Manager and the Project Engineer. The project is planned for construction this year (2023).

We encourage all interested contractors to attend this video conference as this will be the only opportunity to directly ask the project engineer and project manager questions before bids are due. No other site visits are planned.

**The pre-bid Zoom video conference will be password protected.**

To be assigned a conference password protected invitation, interested parties must contact Madeleine Eckmann by email before **10:00 am on February 20, 2023** at: [eckm@yakamafish-nsn.gov](mailto:eckm@yakamafish-nsn.gov)

Please specify “Scaffold Camp Zoom Conference Password Request” in the email subject line and provide in the body of the email all participant names and email accounts to which a video conference invitation should be sent. By 5:00 pm on February 20, all contractors that requested an invitation will be provided an email with a password protected link and access instructions to join the Zoom video conference.

We recommend that anyone not familiar with a Zoom meeting watch an online tutorial prior to joining the scheduled meeting as we will be unable to restart the discussion once it is underway. Zoom tutorials can be accessed at: <https://support.zoom.us/hc/en-us>.

Please join the meeting 5 minutes early to iron out any issues. If you have trouble joining the meeting, send an email to [mikem@interfluve.com](mailto:mikem@interfluve.com).
